WHO WE ARE

KARMA

OUR BRAND

Artists + engineers. Visionaries + pragmatists. Rule followers + troublemakers. Karma is driven to transform the industry through our inventive approach, our timeless offerings and our commitment to our elite community of owners. Every millimeter, intentional. Every moment, exceptional. Every vehicle, a masterpiece. We're not simply manufacturing vehicles — we're crafting unforgettable experiences meant to create continuous awe for our drivers, building masterworks of art that become extensions of our drivers' souls. We exist to build extraordinary vehicles that unite supernatural imagination with American ingenuity.

ABOUT KARMA AUTOMOTIVE

Karma Automotive is an ultra-luxury vehicle company that engineers, designs and manufactures its electric and extended range electric vehicles in Southern California. With headquarters in Irvine and production facility in Moreno Valley, Karma's dealer network includes North America, Europe, South America, and the Middle East.

IRVINE

▲ KARMA REVERO

Karma Automotive is California's first and only ultra-luxury manufacturer, and our choice of location reflects the ethos of the brand. California is both a sunlit picture-postcard of the beautiful life and the global symbol of a place where the old rules are set aside in order for progress and innovation to thrive. It is this spirit which drives Karma Automotive forward.

Few will know the joy of owning and driving the third generation Revero, as it is built in highly limited numbers and appeals to discerning individuals seeking an escape from tradition.

As you turn these pages, you'll learn about the features and pioneering technology which sets Revero apart, including its innovative Karma Extended Range Electric Vehicle (EREV) and advanced Karma Connect over-the-air capabilities, which enable Revero to always stay connected.

What you won't find in these pages is what can only be experienced first-hand by driving your new Revero and admiring the workmanship which shapes every curve of its bodywork and every stitch of its interior. Here, cutting-edge technology meets pinnacle luxury, striking a new harmony between beauty and efficiency, grandeur and purpose.

▲ DISTINCTLY KARMA

Uncompromised proportions characterize the progressive exterior design of the third-generation Revero. A wide wheel base and flowing fender lines express the strong stance and confident character of Revero. With its long dash-to-axle ratio, the silhouette is effortlessly sculpted, achieving the harmonious balance of dynamic energy and serenity of a timeless beauty.

Turbines and wing sections, inspired by California's pioneering aerospace industry, influence the dynamic front-end details. Expressive LED headlights and taillights blend sophistication with a modern, fluid design that is distinctly Karma.

▲ PERFORMANCE

From carving the canyons to cruising down the coast, the Revero feels at home on any road. Karma's proprietary inverters convert direct current from the lithium-ion battery into alternating current, delivering 536 horsepower and 550 lb-ft of torque to power the rear wheels, giving you the classic grand touring experience.

▲ FREEDOM OF CHOICE

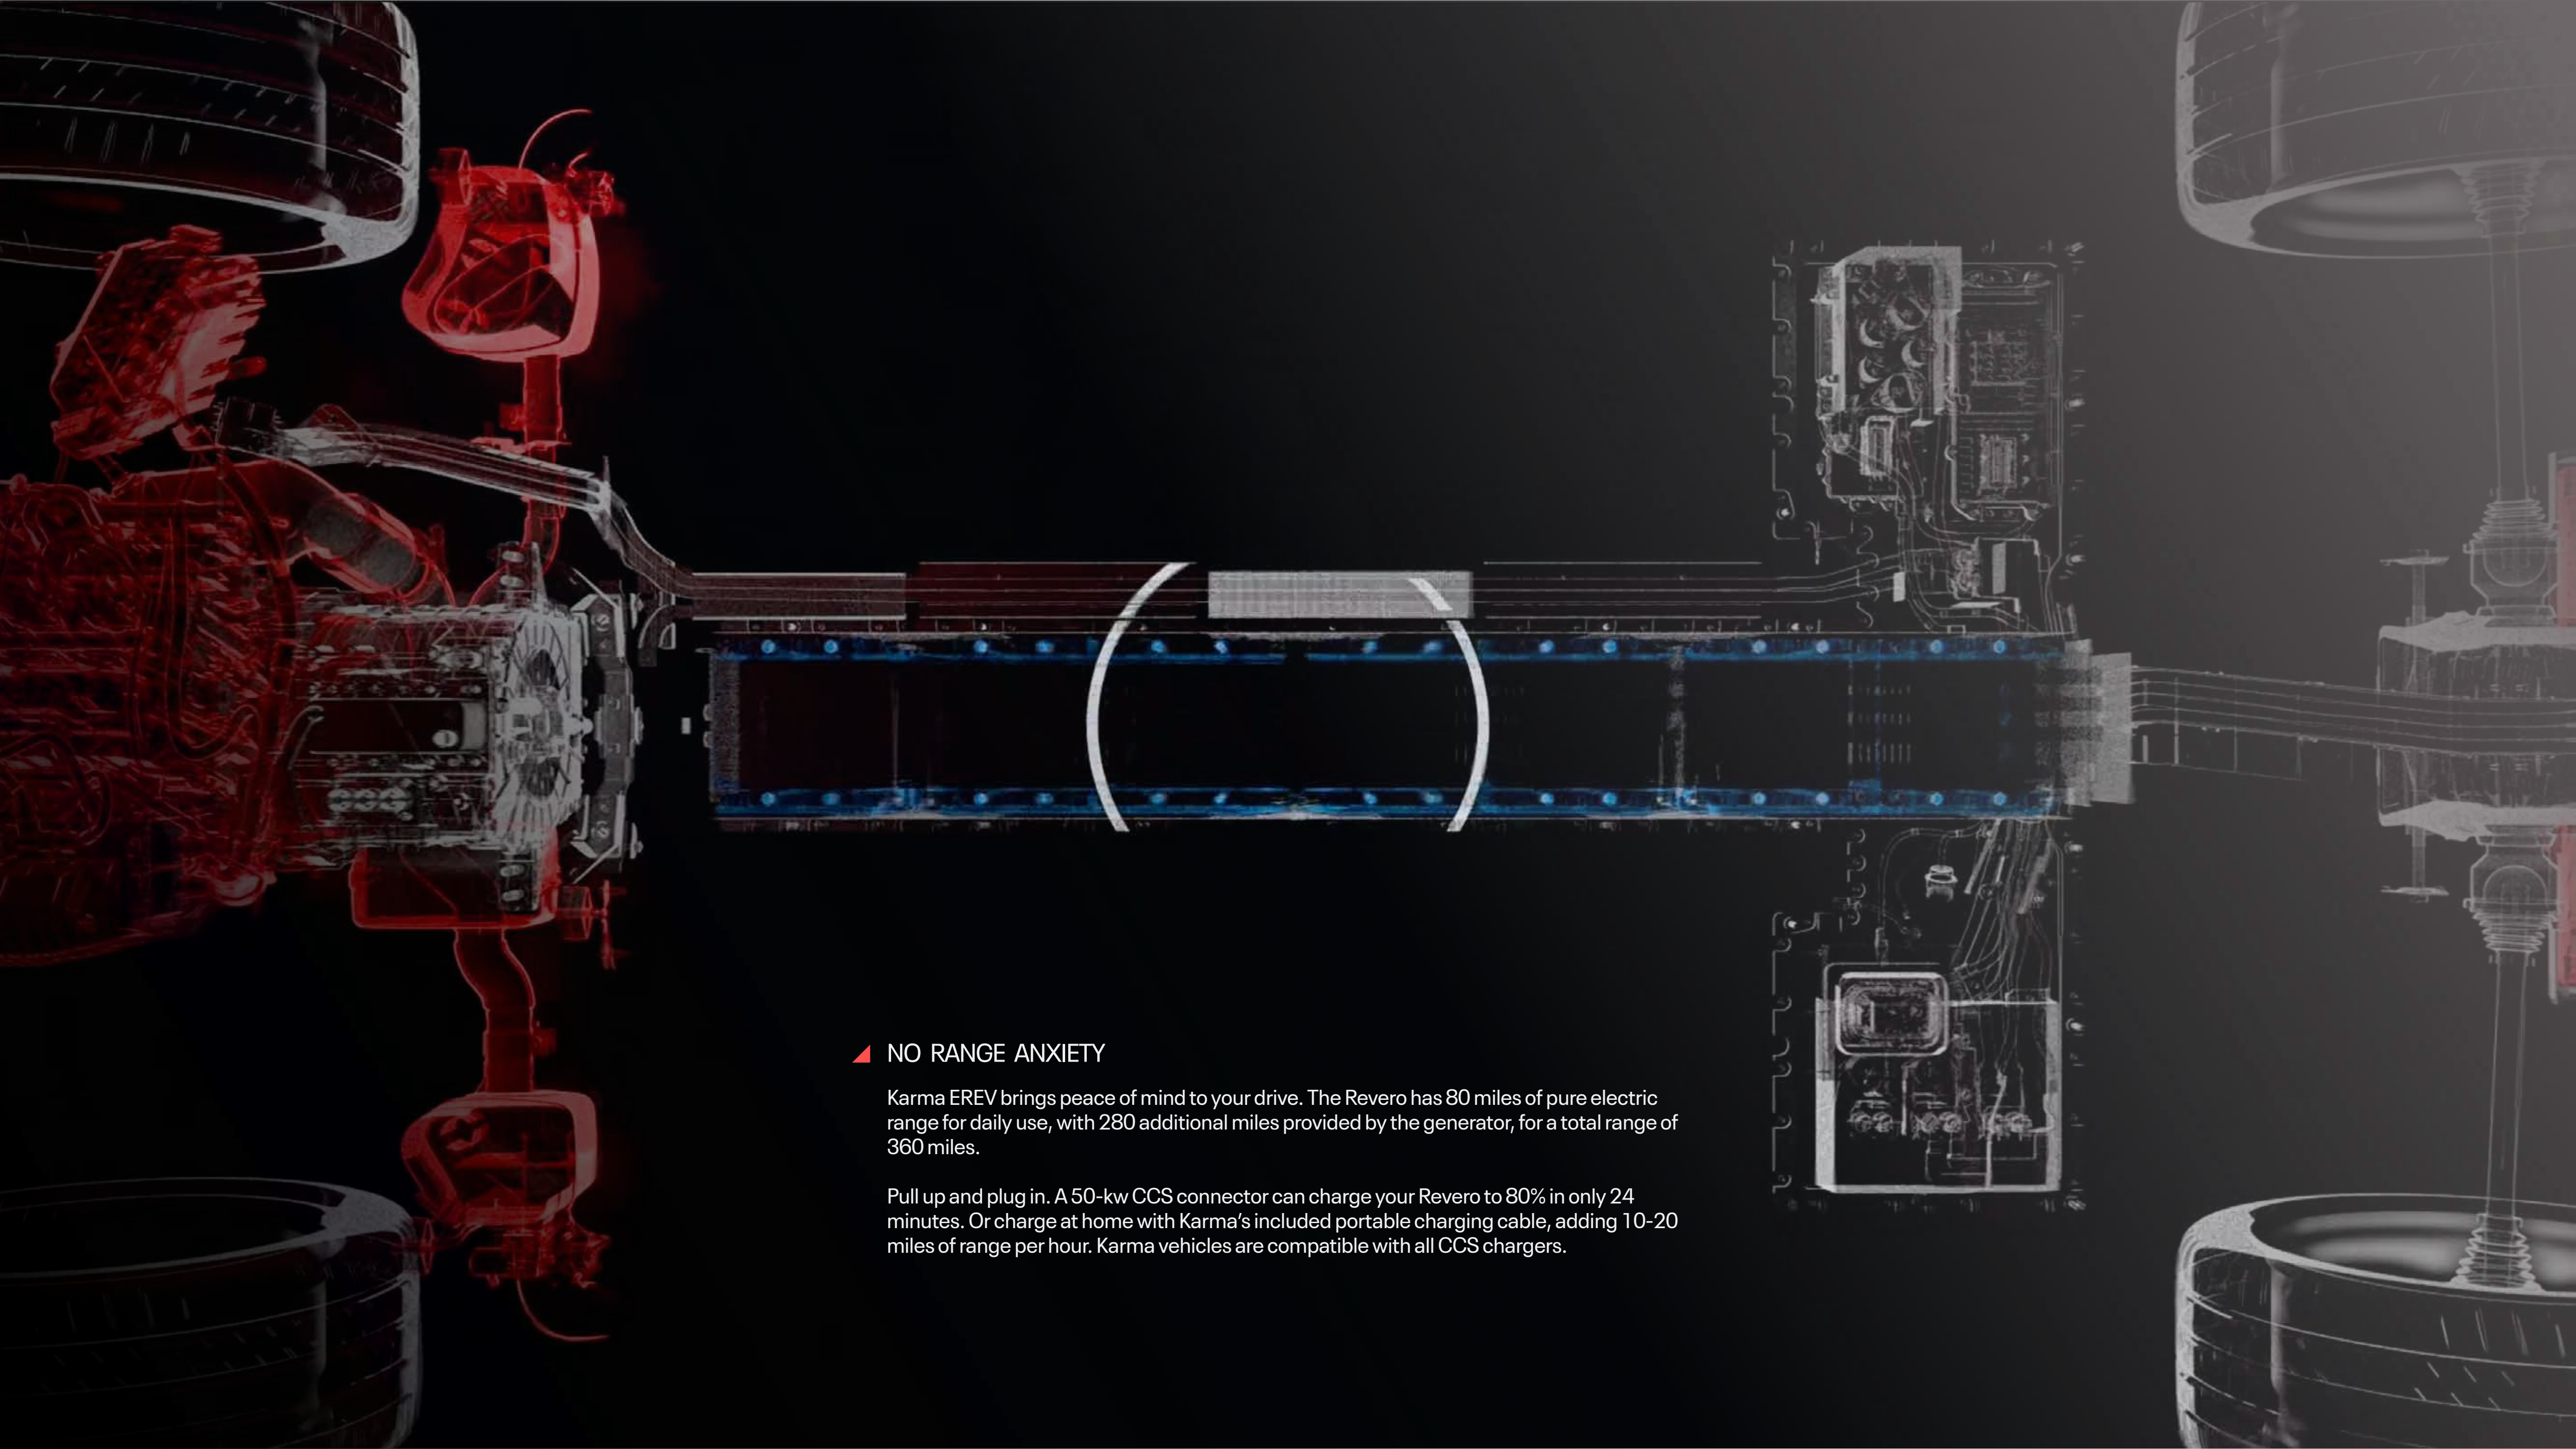

This isn't just about performance; it's about freedom. With Karma Extended Range Electric Vehicle (EREV), you're liberated by possibilities. That's the duality that defines EREV technology: the grace of an electric vehicle with the freedom to go farther. Karma EREV adapts to your world - a driving experience that doesn't ask you to compromise.

Switch between three different regenerative braking levels on the fly with the right side steering paddle. Use Regen 1 for easy highway cruising and easily switch to Regen 3 in the city for maximum energy regeneration.

Tailor your energy usage to your driving style. With three drive modes, drivers can swap between Stealth (pure electric), Sustain (generator supported), and Sport (both electric and generator).

▲ NO RANGE ANXIETY

Karma EREV brings peace of mind to your drive. The Revero has 80 miles of pure electric range for daily use, with 280 additional miles provided by the generator, for a total range of 360 miles.

Pull up and plug in. A 50-kw CCS connector can charge your Revero to 80% in only 24 minutes. Or charge at home with Karma's included portable charging cable, adding 10-20 miles of range per hour. Karma vehicles are compatible with all CCS chargers.

INTERIOR

The Karma interior craftsmanship team has developed material specifications that fuse tradition and modernity while still allowing the natural beauty of life to shine through. The leather in the Revero receives only minimal coloring, allowing the soul of this material to come to life.

INTELLIGENT INTERIOR

Industry-leading digital architecture, infotainment with Apple Carplay® and Android Auto™, and 3D haptic touch technology support an engaging, connected driving environment, allowing you to enjoy the journey as much as the destination.

ALWAYS CONNECTED

Karma's Connected Vehicle System offers industry-leading digital connectivity. Beyond remote vehicle diagnostics which offer every owner complete peace of mind, software is also automatically updated to each vehicle over-the-air for additional features and enhancements. The ownership experience gets better with each and every drive.

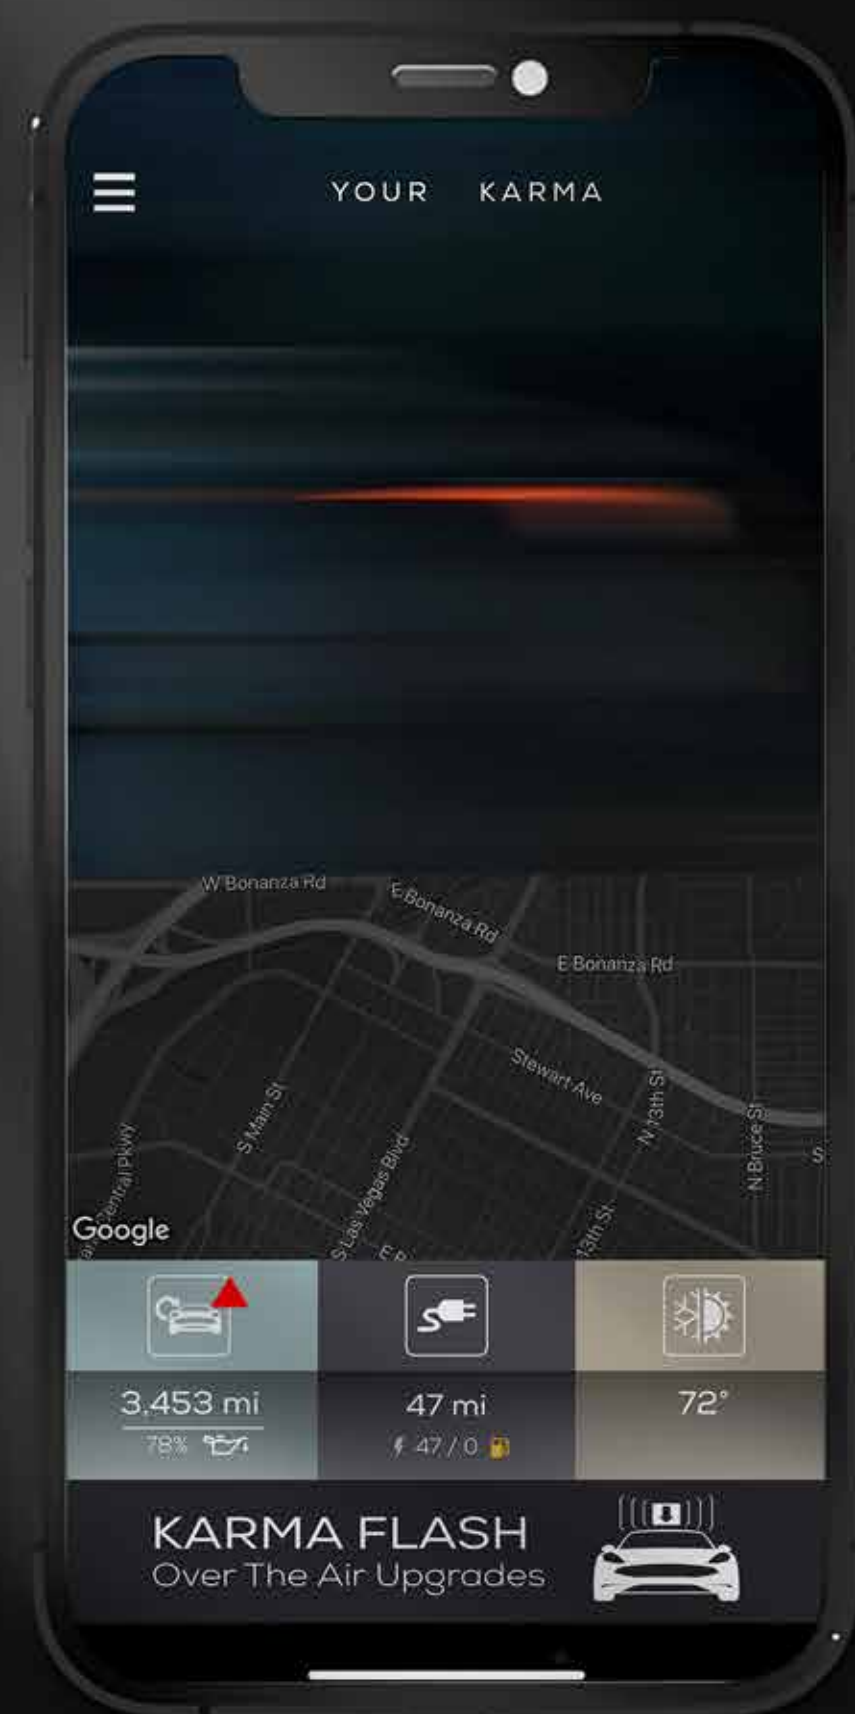

▲ **KARPILOT ASSIST**

Supplement your drive with KarPilot Assist. With KarPilot Assist engaged, your vehicle will adjust speed to match traffic and help keep your vehicle in its lane. Drivers will need to keep hands on the wheel and eyes on the road at all times while using KarPilot Assist.

KarPilot Assist includes:

- Traffic Jam Assist
- Adaptive Cruise Control
- Automatic Emergency Braking
- Lane Keep Support
- High Beam Assist
- Blind Spot Monitoring
- Rear Cross Traffic
- 2D/3D Surround View Camera

CONNECTED TECH

Never worry about being out of date with your vehicle's over-the-air updates. New features and upgrades will be added over time. Keep track of these updates and other features with the MyKarma mobile app.

COMFORT + CONVENIENCE

Lights	Bi-LED headlamps with automatic digital swiveling, LED interior lighting CHMSL – high voltage battery charge level indication
Exterior Mirrors	Auto-folding with defrost
Rear View Mirror	Rimless with automatic dimming
Front Seats	Six-way power, Driver Memory, Heated, Ventilation
Rear Seats	Heated
Steering Wheel	Multifunctional controls (cruise, audio, phone, voice control with Apple CarPlay® or Android Auto)
Steering Column	3D Touch technology for steering wheel control with haptic feedback
Universal Remote Transmitter	Programmable easy entry and electronic tilt and telescope Located in the rear view mirror, three programmable Homelink®- compatible devices
Climate Control	Dual-zone
Firmware Over the Air	Remote diagnostics and software upgrades

INFOTAINMENT

Audio	7.1 channel 520 W Peak Class-D amplifier
Radio	FM/HD Radio
Mobile Integration	Apple CarPlay® and Android Auto™ Wireless audio streaming and hands-free calling (HFP/A2DP/ AVRCP/PBAP)
Bluetooth®	Two USB ports 2.1 A
Other Connections	Cellular connectivity for Over-The-Air (OTA) updates, remote diagnostics & software updates

SAFETY

Airbags	Eight total airbags: two-stage driver/ passenger airbags; knee airbags;
Child Seats	full-length side-curtain airbags; seat-side airbags.
Pedestrian Awareness	LATCH (Lower Anchors and Tethers for Children) compliant
Advanced Driver Assistance System	Audible external pedestrian sound up to 28 mph Surround View Camera System (SVCS) Blind Spot Monitoring (BSM) Rear Cross Traffic Alert (RCTA) Parking Distance Monitoring (PDM) Forward Collision Warning (FCW) Lane Departure Warning (LDW) Automatic Windshield Wipers
Tire Safety	Tire Pressure Monitoring System (TPMS) with Auto-Learning
